South London (HESL)*

Acute Stroke Simulation Training Advanced Course

***An inter-
professional
Clinical Simulation
course which uses
an interactive
Human Patient
Simulator to learn,
practice and deliver
clinical care in a
'close to real'
environment.***

***This course is for Band
6/7 Stroke Nurses and
Senior Doctors (SpRs and
Consultants).***

***The course will focus on
five acute scenarios. Each
scenario is followed by a
video-assisted debrief.
The course will improve
on recognition and
management of acute
deterioration in a Stroke
patient and build on the
core issues of Non-
technical Skills***
