South London (HESL)*

Acute Stroke Simulation Training

Basic Course

***An inter-
professional
Clinical
Simulation course
which uses an
interactive
Human Patient
Simulator to
learn, practice
and deliver
clinical care in a
'close to real'
environment.***

***This course is for Band 5
Stroke Ward Nurses and
Junior Doctors.***

***The course will focus on
five acute scenarios. Each
scenario is followed by a
video-assisted debrief.
The course will improve
on recognition and
management of acute
deterioration in a Stroke
patient.***
